Why Become a Member?

Development of communication networks in areas such as training, facilities, operational procedures, and investigative information are essential as the science of aircraft rescue and firefighting continues to develop. Membership in the ARFFWG provides that networking avenue for all those concerned with aviation fire safety.

Some of those benefits include:

**ARFF News** — The largest bi-monthly periodical published dealing exclusively with ARFF issues. Members receive a print copy and access to download the most current issues with the touch of a button on the website. Archived issues are also available for review or download.

**Annual Meeting** — Participation in the world’s largest ARFF conference held in the U.S. each year at a discounted rate.

**Section Seminars** — Smaller training venues held throughout the country with minimal registration fees and maximum training opportunities.

**Forum** — A unique bulletin board for members and others to exchange views, share information, photos, lesson plans and experiences related to the aviation fire safety and protection industry. “Huge networking value”

**Expert Assistance** — The ARFFWG can put members in contact with experts in the field to assist them with special problems or supply specific information.

**Members Only Section on Website** — Members have access to the educational presentations that have been recently presented at conferences and seminars. With one click on the “News” button receive all the “Daily News” in the world of aviation.

**Hot Topics** — The addition of the “Hot Topics” area gives access to up-to-date information on issues currently affecting the ARFF industry.

And much, much more!

The ARFF Working Group is an International Non-Profit Organization as determined under Section 501(a) of the Internal Revenue Code described in Section 501 (c) (3).

The ARFF Working Group... Who are we?
Unfortunately, far too many people don’t even realize that there are hundreds of thousands of specialized firefighting professionals protecting all of the airports around the world. These men and women work to protect the millions of passengers utilizing air travel daily to move across the globe. They are willing to lay their lives on the line to answer the call to duty for an aviation disaster. The ARFF Working Group is dedicated to ensure that they are prepared to safely and effectively complete their mission.

Established over 25 years ago, the ARFF Working Group was organized to create an active network of information sharing among airport fire rescue professionals. These professionals had been working hard to develop training materials and standard operating guidelines. Without an avenue to bring these departments together, they were essentially working in a vacuum and duplicating efforts. Unfortunately, many are operating in that same manner today.

The ARFF Working Group membership has grown to almost 1000, active members, representing over 250 plus airports in more than 30 countries. We continue to develop and deliver comprehensive education programs on a wide variety of ARFF topics. We also provide guidance to aviation related organizations with ARFF related issues. Our members serve on active committees involving the Federal Aviation Administration, National Transportation Safety Board, International Civil Aviation Organization and the National Fire Protection Association, just to name a few.

Membership Benefits are Invaluable!

Why Join?

Membership Categories

We have developed a wide variety of membership levels to help assist airports from small to large.

Individual
Members in this category will possess voting and representational rights in the ARFFWG on an Individual basis. Their participation will not be interpreted or applied to representation of their employer or affiliation.

Membership Fee Civilian: $65
Membership Fee Military: $55

Organizational - Supporting
Supporting Organizational Members shall represent institutes, societies, associations, boards, bureaus or commissions and departments of state, local and national governments.
